Criminal Justice (16 credits) Business Management

SKTR295 (3 credits)

This innovative program is designed for individuals who already hold a current journeyman card that is recognized by the State of Michigan, or the U.S. Department of Labor. Students who provide appropriate documentation verifying their journeyman status will receive 29 credits for SKTR295. Students must then complete all general education coursework at MCC, and as many suggested electives as necessary to earn at least 60 credits.

SKTR296 (3 credits)

This program trains students in basic industrial machining. Coursework focuses on electronics, CNC, and tool and machine operations.

SKTR297 (3 credits)

This program trains students in basic industrial maintenance. Coursework focuses on electronics, PLCs, and machine operation.

SKTR298 (3 credits)

This program trains students in basic industrial machining. Coursework focuses on electronics, CNC, and tool & die design.

SKTR299 (3 credits)

The associate degree program provides the background, skills, knowledge, understanding and techniques needed to produce quality weldments. Students gain knowledge of various materials and an understanding of the effects that heat and stress have on welded materials. Students should develop sufficient skills for American Welding Society Certification. The certificate program stresses the development of techniques and understanding of quality weldments. Effects of heat and stress on welded materials are studied and practiced in the laboratory. Students may develop sufficient skill for American Welding Society Certification. The job training program is for students who want to learn how to weld.
